

SKILLS MISMATCHES

Industrial Sectors where the Tertiary qualified work, 2014

OF THE **118 700** ENGINEERING DEGREES

work in the Financial sector, 23% in Manufacturing and 8% in Community, Social & Personal Services

are employed as Professionals, 37% as Managers and Senior Officials and 11% as Technicians and Associate Professionals

OF THE **382 700** ENGINEERING POST GR12 TVET QUALIFICATIONS

work in the Financial sector, 18% in Manufacturing and 14% in Community, Social & Personal Services

are employed as Technicians, 17% as Managers & Senior Officials and 13% as Professionals

Regarding the educational qualification-job mismatches, the evidence showed that higher education graduates tended to be employed in high-skilled occupations as managers, professionals, and technicians, and associate professionals. In contrast only a minority of those with TVET qualifications worked as technicians and associate professionals. Significantly, the data also revealed that nearly half of the Higher Education graduates are employed in the community, social and personal services sector. A high proportion of the Science and Engineering graduates, from both higher and technical and vocational education sectors, prefer to work in the financial services sector, as opposed to the manufacturing sector.
